## Email Address

Unlike your username, you can change your email address. Updating your email address changes where account notifications, such as a password recovery email, are delivered. Your email address can also be used to sign into your *Cerner Health* account instead of your username.

### Step 2 of 3

A confirmation email has been sent to . . . @**ymail.com**. To complete your request to change your email address, follow the instructions contained in the confirmation email. Notifications will continue being sent to your previous email address until you complete these instructions. This confirmation email expires in one hour.
